

3SP Essential Agreement, 2017

We would all like a classroom that is happy, safe pleasant and creative. To create this we do the following things:

1. We will be good communicators by listening to the teacher and to each other. We will speak in a clear voice. We will take turns to speak and raise our hands to have our turn. We will show co-operation, appreciation and enthusiasm when we are at school.
2. We will be risk takers by trying new things. We will show curiosity and be open-minded toward new ideas and new people.
3. We will be caring towards other people and help others. We will welcome other students, teachers and helpers into our class. We will also care for our lovely room by keeping it clean and tidy, pushing in our chairs and putting our things away. We will show integrity.
4. We will be inquirers by asking interesting questions. We will wonder and look for answers. We will always wonder how we can make ourselves and our work better.
5. We will make our room pleasant by showing appreciation and enthusiasm and by smiling and being cheerful.
6. We will be Creative when we do our work. We will use different ways to show our understandings.
