14th February 2017

Dear Parents/Guardians,

The Grade Twos have begun an inquiry on **Who we are**. The central idea for the inquiry is **‘Many factors contribute to who I am’** and the lines of inquiry are:

- There are a variety of values
- Individuals have different interests
- Relationships influence who I am

As part of the inquiry process, children are required to bring in an artefact that represents the central idea and lines of inquiry. It is important that students participate in this process, as they will be completing a reflection about their artefact that will be placed in their portfolio.

Below are some ideas of artefacts that they can bring in to share with the class:

<table>
<thead>
<tr>
<th><strong>Books</strong>- picture story book to show a value.</th>
<th><strong>Photographs</strong>- a photo that shows their interests or a value.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Objects</strong>- represents a value, interests including hobbies, culture they come from or something they have achieved.</td>
<td><strong>Posters</strong>- create a poster to show relationships, interests and values.</td>
</tr>
<tr>
<td><strong>Other</strong>: Magazines, newspaper article, flag, toys, images and diagrams.</td>
<td></td>
</tr>
</tbody>
</table>

Please note that this list is simply a guide. Students can choose something else, however, it must relate to our inquiry and your child being able to explain its relevance.

Thanks for your support
Grade 2 Team
