SCHOLARSHIP COACHING SUPPORT PROGRAM EXPRESSION OF INTEREST

Dear Parents,

We will be offering a scholarship coaching program for our year 5 students who intend sitting special entry or scholarships in 2017 for year 7. The object of the program is to give interested students practise in performing test tasks and other skills they may need when sitting scholarships or special entry tests one hour each week ending mid-year 2016.

We plan to begin sessions on Thursday 4th of June in class time and will negotiate with the students as to when the sessions are held next year.

The sessions will cover literacy and numeracy tasks including comprehension, grammar, problem solving and logical thinking.

It is the family's responsibility to seek information from the secondary settings and to enroll their child for the entry tests. Some are held early in term 1 of the following year.

Please complete the slip below indicating that you have discussed this opportunity with your child and indicate that they would like to be involved in the group starting next week. This program is optional and children may pull out at any time with your approval.

We would suggest in the meantime that you work with your child helping them improve their general knowledge through playing games such as the children's version of "Trivial Pursuit" or similar. Mathematics and other computer based self-paced programs are very useful. Discussing and keeping up with relevant topics through the newspapers and the News will also be helpful. There are several publications with specific English and Math's activities available from good bookshops your children can work through improving skills in these areas.

If you have any information or can suggest helpful material for other parents please let us know.

Thanking you.

Susan Lee
